LinkedIn: linkedin.com/in/sammy-m-56275b3a9 | Portfolio: Live Portfolio

CAREER OBJECTIVE

Motivated Bachelor of Computer Applications (BCA) student building skills in programming, web development, and AI/ML. Eager to apply classroom learning to practical projects, collaborate with a team, and continue developing problem-solving and software development skills.

EDUCATION

Bachelor of Computer Applications (BCA)

Currently pursuing | Institution and graduation year can be added

TECHNICAL SKILLS

Programming: Java, Python

Web Development: HTML, CSS; building and publishing a personal website with GitHub Pages

Areas of Interest: Artificial Intelligence, Machine Learning, software development

Tools: GitHub, GitHub Pages

PROJECTS

Personal Portfolio Website

Created and published a personal portfolio website to present skills, projects, and professional links. Used GitHub to store the website files and GitHub Pages to host the site.

View live portfolio

Traffic Safety Detection — Prototype / In Progress

Exploring an AI-based traffic safety concept focused on detecting relevant road-safety objects from images or video frames. Production-grade detection requires integration with a trained object-detection model and testing.

Python Practice and AI/ML Learning

Developing programming fundamentals and exploring introductory AI/ML concepts through learning activities and practice.

STRENGTHS

- Willingness to learn new technologies
- Interest in practical problem-solving and project-based learning
- Open to teamwork and collaborative development

Note: Add your college name, expected graduation year, and any verified achievements or certifications before sending this resume to employers.
